

Dear CMO Families,

Children's Medical Office of North Andover is switching to a new electronic medical records system that we believe will very much improve your child's experience at our office. While we adjust to this new system, things like checking in and out at the office and visiting with your child's provider may take longer, and some of our office procedures may be a little different the next time you visit. We apologize for the inconvenience.

One great advantage of our new system is MyChart, which enables you to view your child's medical record, including notes from medical visits and lab tests, get past immunization history, view and pay your bill, and even to download camp and sports forms.

On your phone, download the MyChart mobile app from your application center. Open the MyChart app, select your country and state, and pick "PPOC" (see logo bottom right) from the listed organizations. Then, log in!

Please visit MyChart <https://mychart.chppoc.org/CMO> **after August 29** and give it a try. If you have any questions, please call us at 978-975-3355. We strive to make your child's visit as easy as possible.

Thank you for your patience!

Sincerely,

Children's Medical Office of North Andover
